Hi Claudia,

Sorry to put you through that! You should have said, I could have done it from here too. Thanks for getting those cleaned up. I have contacted everyone I needed to this morning to be sure we are all of the same page with sending this out and we are good to go – Yippee! I am drafting an email right now and will get it sent shortly to OAR.

Take care,

Dee

Okay, I braved remote mapper for the first time in probably a year and a half. I saved a clean version of each document with today's date and removed the RLSO from the file name. In the draft FR notice, I deleted all of the comments, but left the yellow highlight where we still need to add specific numbers, more details later (tribal consultation), or may need to change numbers if OMB decides the rule is significant. They should be ready to send to OAR now.

Thanks,

Claudia

Hi Claudia,

Congrats on a job well done! I just went through the TSD and saved it with my comments with today's date on the I drive. I think it looks good to send to OAR. So, I think if we can save a clean copy of each document with no comment boxes, I can get things in motion to send it up to OAR.

Thanks,

Dee

Hi, Dee,

I finished the Draft FR Notice on Sharepoint (minus the locked section by Chris and Jody getting an answer from Jan Gilbreath on CRA). Should be ready to send to OAR. I saved a version with today's date to the I drive in the Regulatory documents section.

I also finished cleaning up the TSD on Sharepoint. There are only a very few outstanding comments for you to look at and then that document should also be ready to send to OAR. I did also save the latest version with today's date to the I drive in the Technical Support Documents folder.

Charlene Spells has been invited to the Sharepoint site.
